FUNDU READER

Beegees Computers Pvt. Ltd.

Fundu Reader is this generation's way of accessing and reading textbooks, journals, favorite novels, magazines, news papers and pretty much any reading material. It is the slickest e-book device on the market, fitting well in your hand just like a paperback. It has an internal memory of 2 GB (800 MB available to user) and comes with a 4 GB Micro SD card (Supports upto 16 GB) allowing you to carry thousands of books in your Fundu reader. It uses the revolutionary electronic paper display technology that provides a sharp, Black and White screen that looks and reads just like it would on real paper. It is easy to read and will not strain the eyes like LCD screens do. It also provides Wi-Fi connectivity, full text search and a facility to take notes/annotations. It has inbuilt speakers to allow users to listen to audio books or music while reading.

E-ink screen – extremely clear and easy on the eyes:

Utilizing the revolutionary electronic-paper display technology, the Fundu Reader provides a sharp, black-and-white screen that looks and reads just like it would on real paper. So now you can read text just as easily in bright sunlight as you would in your own living room. The text is crisp and easy to read. The screen does not have the angle-of-view issue like LCD screens do, so users can comfortably read as long as they like.

Thin and lightweight - easy to hold and carry:

With the weight of just 240 gms. and the thickness of 8.8mm, the Fundu Reader is thinner as well as lighter than a typical paperback, while also fitting well in your hand. You can fit thousands of books on the Fundu Reader and it's very easy to hold and read both indoors and outdoors. Actually, you can take it anywhere with you- the park, the bus, the doctor's office, even when travelling etc.

Enjoy your music collection while reading:

With a built-in MP3 player and speakers, Beegees Fundu Reader enables you to enjoy your favorite music while reading your favorite books. You can download your MP3 files directly from web, alternatively transfer your collection from computer using the USB. You can simply touch the “Audio Button”, go directly to the MP3 folder and select the specific music to play.

Ultra-low power consumption and long battery life:

Based on the revolutionary E-ink technology, the Fundu Reader does not use any power to maintain a page display while only using power when an image is changed. Also, a single battery charge provides up to 8,000 pages of continuous reading. That is to say, you can read your books for an entire evening but using very little battery. The Fundu Reader can be fully recharged in only three to four hours.

User Friendly Touch, Wi-Fi and Powerful search capability

By making use of the Wi-Fi feature users can directly log on to their favorite websites and download the required books or simply read them on the World Wide Web. Users can also use the powerful full text search feature to find the required word in any downloaded book, journal they are reading. The touch feature makes navigating very easy and user friendly. The Fundu reader is also equipped with an auto tilt feature to change the orientation of display. In addition the users may increase/ decrease the page size for comfortable viewing experience. The reader is also equipped with reflow capability which automatically reorganizes the text to fit the screen size.

A whole library in your hand
